

MOBILE INNOVATION Wearable Flat Panel Displays

DART™ Wearable FPD is a fully-enclosed, wearable display solution for use in out-of-home marketing and promotions. While the idea has been around for several years and a few competitors have produced temporary solutions, A.R.T. has created a dynamic, attention grabbing, fully functional 14" display system that simply blows all others out of the water. Our full-screen video system not only shows high-resolution MPEG and Flash movies but also incorporates a high volume stereo speaker system (volume range of up to 100 yards). DART™ Wearable FPD is available in a variety of colors and can be custom built to suit your individual marketing needs. Additional features include WiFi updating and touchscreen interaction.

- Custom Configurations
- Dual Screen Option
- Custom Vest Colors
- Variety of Multimedia Formats
- Mobile Messaging Made Easy

Taking into account a variety of end-user traits and needs, A.R.T. has designed and manufactured a cutting edge solution that is flexible, comfortable, and adjustable to fit a wide range of sizes.

To date, our video vest products have been seen at the B.E.T. Awards, the Miami Hip-Hop Awards, on the artist Cierra (introducing her new album), along with various festivals, night clubs, premieres, and the like.

As always, A.R.T. excels in custom applications utilizing cutting edge technologies and innovations. We are available for unique projects and are always customer focused regarding budget adherence and deadlines. Please contact an A.R.T. sales associate for more information or a consultation.
